

The client is in the process of replacing its core system and building a brand-new system by its own IT department. Hengtian took charge of testing the new system with our professional test team.

Highlights

- ◆ Controllable Test Processes
- ◆ Solid Testing Experience
- ◆ Strong Capacity of Test Solution
- ◆ Adaptive to Complex Environment

- ◆ Started in Nov 2011, and the total testing efforts are about 500 man-months.
- ◆ There are around 60 QA engineers involved with the project at the peak time.
- ◆ A large amount defects have been discovered during the testing, and quite a few key issues have been exposed at early testing stage.
- ◆ The system has been gone live at middle August 2012.
